

Agenda Day 2

Tuesday September 14, 2010

08:00	<p>Launching PlantStruxure™ Schneider Electric's new collaborative solution, the way to go forward Andrew Brown, System Marketing Manager, End User Solutions, Schneider Electric France</p>	
08:50	<p>Partnering for End User success Bruce Grobler, Sales Manager, Industry, Schneider Electric South Africa</p>	
09:20	<p>Schneider Electric Technology roadmap Wilhelm Swart, Vice President, Industry and Automation Division, Schneider Electric South Africa</p>	
10:00	Morning tea/coffee break	

TECHNOLOGY Speed Dating

	MES/SCADA	Not to miss	Drives	Controllers/HMI
10:30	<p>CASE STUDY: Using MES (Ampla) to drive out energy waste in your plant Gordon Quigley, Vice President, Production Energy Optimisation, Schneider Electric France</p>	<p>Associated components & Collaborative Partner Products Claude Lennox, Product Application Engineer, Schneider Electric South Africa</p>	<p>New innovations on drives and softstarters Rynhard Davids, Product Manager, VSD, Schneider Electric South Africa</p>	<p>TRAINING Understanding architecture of PLC and its associated components and systems Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>
— 5 min Changeover —	<p>MES - Vision and Technology roadmap (Ampla) David Sterling, Sales Vice President, Global Sales, Schneider Electric Australia</p>	<p>CASE STUDY: MTN Building Solutions - Integrated Management Systems drive Energy Savings Martin van Zyl, Strategic Account Manager, Schneider Electric South Africa</p>	<p>How to improve energy efficiency with drives Roger Vourch, Motion & Drives, Country Business Support, Schneider Electric France</p>	
11:00	<p>MES - Vision and Technology roadmap (Ampla) David Sterling, Sales Vice President, Global Sales, Schneider Electric Australia</p>	<p>CASE STUDY: MTN Building Solutions - Integrated Management Systems drive Energy Savings Martin van Zyl, Strategic Account Manager, Schneider Electric South Africa</p>	<p>How to improve energy efficiency with drives Roger Vourch, Motion & Drives, Country Business Support, Schneider Electric France</p>	<p>Meeting your needs for a unified, scalable and flexible family of PACs and what the future will bring Marc Lafont, Marketing Project Leader for PAC, Schneider Electric France</p>
— 5 min Changeover —	<p>CASE STUDY: MES as a key enabler in an Enterprise Data Architecture Gordon Quigley, Vice President, Production Energy Optimisation, Schneider Electric France</p>	<p>Intelligent motor control centres - taking intelligence and energy efficiency to the next level Martin van Zyl, Strategic Account Manager, Schneider Electric South Africa</p>	<p>TRAINING Select the right variable speed drive for the right application Roger Vourch, Motion & Drives, Country Business Support, Schneider Electric France</p>	
11:30	<p>CASE STUDY: MES as a key enabler in an Enterprise Data Architecture Gordon Quigley, Vice President, Production Energy Optimisation, Schneider Electric France</p>	<p>Intelligent motor control centres - taking intelligence and energy efficiency to the next level Martin van Zyl, Strategic Account Manager, Schneider Electric South Africa</p>	<p>TRAINING Select the right variable speed drive for the right application Roger Vourch, Motion & Drives, Country Business Support, Schneider Electric France</p>	<p>Meeting your needs for a unified, scalable and flexible family of PACs and what the future will bring Marc Lafont, Marketing Project Leader for PAC, Schneider Electric France</p>
— 5 min Changeover —	<p>Increase the reliability and validity of your metal accounting data David Sterling, Sales Vice President, Global Sales, Schneider Electric Australia</p>	<p>Sensors - Your one-stop shop for multipurpose products with availability and traceability as key benefits Ralph Real, Product Manager, Sensors & Signaling, Schneider electric South Africa</p>	<p>Roger Vourch, Motion & Drives, Country Business Support, Schneider Electric France</p>	<p>System architectures & solutions based on universal technologies Ethernet TCP/IP and Web - "Transparent Ready" Joe Benedetto, Product Manager, Network Solutions & Support, Schneider Electric France</p>
12:25	Lunch			
13:30	<p>SCADA - Vision and Technology roadmap Peter Hogg, Managing SCADA Product Development, Schneider Electric France</p>	<p>TRAINING Learn how to deploy the Unity Application Generator to implement plant-wide standardisation across multiple suppliers to reduce automation project costs and risks Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>	<p>CASE STUDY: Transvaal Sugar Board Flexible options for Master Slave VSD configuration Helgard Honiball, General Manager, Drives Competency, Schneider Electric South Africa</p>	<p>The new HMI and IPC technology bringing you more visualisation, connectivity and control Pascal Tremblay, HMI Business Development Manager, HMI SE Brand, Schneider Electric France</p>
— 5 min Changeover —	<p>LIVE DEMONSTRATION Analyse the cause of process upsets quickly and easily with the Process Analyst in VijeoCitect SCADA Quintin McCutcheon, Product Application Engineer, Schneider Electric South Africa</p>	<p>TRAINING Learn how to deploy the Unity Application Generator to implement plant-wide standardisation across multiple suppliers to reduce automation project costs and risks Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>	<p>Energy Efficiency - the possibilities for optimisation Shaun Wilson, Energy Efficiency Specialist, Schneider Electric South Africa</p>	<p>Better business decisions thanks to "SoCollaborative" automation software Andrew Brown, System Marketing Manager, End User Solutions, Schneider Electric France</p>
14:00	<p>LIVE DEMONSTRATION Analyse the cause of process upsets quickly and easily with the Process Analyst in VijeoCitect SCADA Quintin McCutcheon, Product Application Engineer, Schneider Electric South Africa</p>	<p>TRAINING Learn how to deploy the Unity Application Generator to implement plant-wide standardisation across multiple suppliers to reduce automation project costs and risks Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>	<p>Energy Efficiency - the possibilities for optimisation Shaun Wilson, Energy Efficiency Specialist, Schneider Electric South Africa</p>	<p>Better business decisions thanks to "SoCollaborative" automation software Andrew Brown, System Marketing Manager, End User Solutions, Schneider Electric France</p>
— 5 min Changeover —	<p>TRAINING CitectSCADA: Learn how to easily connect and optimise communications to Modicon and other third party PLCs over Ethernet Wayne van den Berg, Professional Services Manager, Schneider Electric South Africa</p>	<p>Installed Base Services - Increase performance throughout the life cycle of your operation Pierre Maxl, Automation Support & Training General Manager, Schneider Electric South Africa</p>	<p>CASE STUDY: Midvaal Water Reduce your cost and improve your business performance with power factor correction and harmonics mitigation Helgard Honiball, General Manager, Drives Competency, Schneider Electric South Africa</p>	<p>LIVE DEMONSTRATION Migration to the Latest & Greatest Bring your PL7Pro / PL72 / Modsoft / ProWORX and XBT - L1000 for easy conversion to the latest Unity and VijeoDesigner software Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>
14:30	<p>TRAINING CitectSCADA: Learn how to easily connect and optimise communications to Modicon and other third party PLCs over Ethernet Wayne van den Berg, Professional Services Manager, Schneider Electric South Africa</p>	<p>Installed Base Services - Increase performance throughout the life cycle of your operation Pierre Maxl, Automation Support & Training General Manager, Schneider Electric South Africa</p>	<p>CASE STUDY: Midvaal Water Reduce your cost and improve your business performance with power factor correction and harmonics mitigation Helgard Honiball, General Manager, Drives Competency, Schneider Electric South Africa</p>	<p>LIVE DEMONSTRATION Migration to the Latest & Greatest Bring your PL7Pro / PL72 / Modsoft / ProWORX and XBT - L1000 for easy conversion to the latest Unity and VijeoDesigner software Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>
— 5 min Changeover —	<p>Wayne van den Berg, Professional Services Manager, Schneider Electric South Africa</p>	<p>Secure Power Solutions for Industry Neil Schreiber, Sales Manager, APC</p>	<p>Overview of new Active Front End and Medium Voltage offer Helgard Honiball, General Manager, Drives Competency, Schneider Electric South Africa</p>	<p>Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>
15:00	<p>Wayne van den Berg, Professional Services Manager, Schneider Electric South Africa</p>	<p>Secure Power Solutions for Industry Neil Schreiber, Sales Manager, APC</p>	<p>Overview of new Active Front End and Medium Voltage offer Helgard Honiball, General Manager, Drives Competency, Schneider Electric South Africa</p>	<p>Guy Eales, Product Application Engineer, Schneider Electric South Africa</p>
15:30	Afternoon tea/coffee break			
16:00	<p>LIVE DEMONSTRATION: Complete the PlantStruxure™ puzzel Schneider Electric Solution Team</p>			
16:40	<p>Final Remarks Wilhelm Swart, Vice President, Industry and Automation Division, Schneider Electric South Africa</p>
